JUMPSTART

Our philosophy:

Variér® chairs are the product of a human idea. We make the human body central to design, learning it by heart. We know which positions promote relaxation, and where and how to support the body. The human body is designed for motion, and should never be still for too long. We make chairs that meet all these needs, and then we free our human imaginations to create bold, unconventional forms with perfect functionality.

The power nap is an invaluable instrument in your quest for productivity, boosting energy levels and recharging your brain. Float free of gravity and experience the ultimate power nap with the Gravity balans®.

Fully reclined, the Gravity balans® elevates your legs above your heart, and rocks gently to the rhythm of your breathing, so you experience a liberating sense of weightlessness. Spine and neck are fully supported while your body enjoys total relaxation. But the Gravity balans® is not just a recliner. It tilts forwards when enjoying coffee with friends, backwards to allow you to place your feet on the floor and further back so you can curl up in front of the TV. In every position, the Gravity balans® is designed to give your body the freedom to move while supporting your back and neck when necessary.
